Benefits of warm water

Warm water can be used to treat different diseases and illnesses. It can also be used as a form of relaxation and to support your health and well-being. It can be help with:

Decreasing pain in joints and muscles

Reducing inflammation

Lessening soreness in muscles

Boosts your immune system

Rehabilitation after surgery or major illness

Please consult your medical professional before attending our centre to ensure that this type of exercise is suitable for your needs. Children under the age of 18 are not permitted in the warm water pool without a medical referral and approval by Management

Please note - Our warm water pool is strictly only for use by those requiring warm water therapy benefits. It is not accessible for general swimming.
